

Valentina Tudisca short Curriculum Vitae

EDUCATION

I have a Ph.D. in Physics, obtained on February 12 2013 at Roma Tre University. After Ph.D., I attended a two-year course for a Master in Science Communication at the International School for Advanced Studies in Trieste (diplom obtained on February 19 2015 with a thesis on the web-documentary as a new frontier of Science Communication).

WORK EXPERIENCE

Since February 2015 I have been working as researcher at CNR-IRPPS, gaining a permanent position in 2018, being active in the group *Social studies on Science, Education, Communication*, of which I became coordinator in 2022. My main research field is the interaction between science and society, with experience in the field of education (European Erasmus Plus projects DESCi, DIYPES, INCLUDE, OLA, GSO4SCHOOL), science-policy interaction (European FP7 project REPOPA), communication between scientists and stakeholders (AQUA national project), representation of migrants in Italian school textbooks and in European online newspapers (Imago Migrantis national project).

In have also experience in science journalism, being collaborating with several magazines, like *National Geographic* and *OggiScienza*, since 2013.

AWARDS

I won three awards in science journalism for articles and multimedia products published on *National Geographic Italia*, *OggiScienza* and *Sapere* magazines:

- Premio Biogem per il giornalismo scientifico e la divulgazione “Maria Antonia Gervasio”, September 2018;
- Premio Paola De Paoli for young journalists engaged in science communication, November 2016;
- Premio Nazionale di Divulgazione Scientifica 2015, in the category “Articles under 35”.

RESEARCH PROJECT PARTICIPATION AND COORDINATION

- Researcher and dissemination manager in the project “Open Learning for All-enhancing digital Open Educational Resources for inclusion against stereotypes” - OLA, March 2021-February 2023
OLA PROJECT DESCRIPTION: it is a 2-year Erasmus+ project coordinated by CNR-IRPPS with participation of Cyprus, Spain, Greece, Romania, aimed at promoting “open educational resources” in Europe, widening the concept of “digital competences” by including critical and responsible use of online platforms and sources and the ability to identify stereotypes and implicit values.
- Coordinator at national level of the project “Leverage students’ participation and engagement in science through art practices” - GSO4SCHOOL, September 2019-December 2022
GSO4SCHOOL PROJECT DESCRIPTION: it is a 3-year Erasmus+ about the “global science opera” methodology, aimed at fostering science education through the creation of a multimedia musical opera about science topics to be realized in collaboration among schools from different countries (partner countries are Italy, Norway, Portugal, Greece, Cyprus), following the STEAM approach.
- Researcher and dissemination manager in the project “Integrated Content and Language via a Unified Digital Environment” - INCLUDE, September 2019-August 2022

INCLUDE PROJECT DESCRIPTION: it is a 3-year Erasmus+ project coordinated by CNR-IRPPS aimed at developing a common framework of CLIL methodology for secondary school at European level, promoting, besides multilingual competences, also key competences for lifelong learning promoted by the EU Council, like digital, personal and social competences, through multimedia educational scenario delivered as Open Educational Resources. Europeanity conception is a transversal issue of the project, that involves Cyprus, Greece, Italy, Romania and Spain.

- Researcher in the project “Futuri per l’Educazione e l’Europeità”, in partnership with the Italian Ministry of Education, March 2021-ongoing

FUTURI PER L’EDUCAZIONE E L’EUROPEITÀ’ PROJECT DESCRIPTION: coordinated by CNR-IRPPS, it is aimed at collecting the voice of the Italian Provincial Student Councils, at national level, about futures of education and europeanity through a participatory research path which comprises a survey and work tables.

- Researcher in the Work Package 1 of the national project “La casa delle tecnologie emergenti di Matera”, promoted by Matera Municipality and funded by Ministry of Economic Development, April 2021-March 2022

LA CASA DELLE TECNOLOGIE EMERGENTI DI MATERA PROJECT DESCRIPTION: the 4-year project aims at developing a Digital Twin of the city, also involving Matera community.

- Researcher and co-leader of the project IMAGO MIGRANTIS, April 2016-October 2017
IMAGO MIGRANTIS PROJECT DESCRIPTION: it aims at studying migrant representations emerging from Italian school textbooks and online newspaper of several EU countries.

- Researcher and co-leader of the Work Package 2 of the project “Do it yourself! A participative approach to increase participation and engagement of high school students in physical education and sport classes” - DIYPES, January 2017-February 2019

DIYPES PROJECT DESCRIPTION: DIYPES is an Erasmus+ project aimed at involving upper secondary school students in co-designing their Physical Education classes in 5 EU countries (Albania, Italy, Malta, Romania, Slovakia, with Denmark as evaluator).

- Researcher in the project “Developing and Evaluating Skills for Creativity and Innovation” - DESCI, September 2015-August 2018

DESCI PROJECT DESCRIPTION: DESCI is an Erasmus+ project that proposes alternating training paths based on the Living Lab approach, connecting school, enterprises, research, territory, involving Greece, Italy and Spain.

Remark: the project has been awarded as good practice by the Italian Erasmus+ National Agency INDIRE in 2019

- Co-leader of the Work Package 4 of the project Research Into POLicy to enhance Physical Activity (REPOPA), September 2015-September 2016

REPOPA PROJECT DESCRIPTION: Research into POLicy to enhance Physical Activity (REPOPA) is an FP7 project born with the aim of fostering the use of scientific evidence in decisional processes in the field of health and, specifically, physical activity. The project lasted 5 years (October 2011-September 2016) and involved 6 European countries (Denmark, Finland, Italy, the Netherlands, the United Kingdom, Romania) and Canada as internal evaluator. The stage of the project I co-coordinated concerns the development of a set of indicators of evidence-informed policy making by means of an international Delphi

study, which ended with the contextualization of the indicators at national level; in a co-production of knowledge process that involved researchers, policy makers and other stakeholders. On the basis of the obtained results, evidence briefs to foster the use of scientific evidence in decisional processes have been prepared.

- Responsible of the Work Package of the AQUA Project concerning the participatory dissemination and the relationship between science and society, October 2014-October 2015

AQUA Project Description: this one-year project (November 2014-October 2015) of the Department of Biology, Agriculture and Food Science of the CNR was born with the aim of promoting solutions and innovative technologies able to increase productivity and efficiency of the use of water in agriculture. The work package I was responsible of concerns the participatory dissemination and the relationship between science and society; I coordinated and realized two surveys, with the other CNR colleagues, to acquire knowledge and promote awareness on communication and the use of research in the agrobiological sector, involving researchers of the project and other societal actors with which the researchers collaborate (researchers, technicians, politicians, mass media). The research produced several proposals to improve communication between researchers and stakeholders.

MAIN MEMBERSHIPS

- Scientific committee for the Premio Nazionale di Divulgazione Scientifica since 2017, promoted by the Associazione Italiana del Libro and CNR
- Scientific and organizing committee of the annual national conference “Officina Educazione Futuri”, organized by CNR-IRPPS in collaboration with the Italian Ministry of Education, since 2016
- Scientific Committee and International Organizing Committee of the online international conference “STEAM Approach in Science Education International Conference”, 6-8 December 2021, online, organized by the Erasmus+ projects NEXT STEP e GSO4SCHOOL
- International Organizing Committee of the online international conference “CASE & GSO4SCHOOL Conference – STEAM Approach in Science Education”, 1-3 December 2020, organized by the Erasmus+ projects CASE e GSO4SCHOOL
- Scientific committee and Program Chair of the international conference “Co-Create! Co-creation of curricula, tools and educational scenarios for building soft competences for personal development and employability”, September 17 2018 in Tartu, Estonia, within the Multi-conference on Responsible Research and Innovation in Science, Innovation and Society 2018
- National Advisory Board for WP4 indicators' contextualization of REPOPA project
- DANDELION Project Advisory Board, meeting on October 19 2016 in Bruxelles for the DANDELION Quadruple Helix Workshop, aimed at giving value to the results of researches funded in the area of “Inclusive, Innovative and Reflective Societies”
- Scientific Committee of REPOPA National Conference, February 5 2016
- Experts Committee promoter of the conference *Dai ricercatori ai decisori, Knowledge Transfer and Exchange (KTE) in ambiente e salute*, held on May 27 2015 at the Scuola Superiore Sant'Anna in Pisa
- Scientific committee for the Primo Premio Nazionale di Editoria Universitaria 2016, promoted by the Associazione Italiana del Libro and CNR, for the area of Physics
- Experts Panel of the Delphi study of the SciCafe2.0 European project, January-February 2016

- Experts Committee for writing the Manifesto and the rules of the Osservatorio Scienza per la Società of Roma II Municipality, 2015
